

QUESTION THE SINCERITY OF SEN. LA FOLLETTE

STATEMENT MADE
BY THE COMMITTEE
IN ST. PAUL TODAYCENTRAL EXECUTIVE COMMITTEE
FOR JUNE 17 CONVENTIONSAYS MOVEMENT CANNOT BE
DIRECTED BY THE SENATOR

(By United Press)
St. Paul, May 29.—Charging Senator Robert M. La Follette with gross misrepresentation and holding up the third party movement as bigger than the man, the central executive committee for the St. Paul June 17 convention today issued a lengthy statement declaring the movement "cannot be diverted or destroyed by any Senator La Follette may do or say."

The statement questioned Senator LaFollette's sincerity and declared he has for many years "maintained formal affiliations with the republican, the most infamous political machine ever in control of American government."

Statement in Detail

"It is reasonable to give the so-called communists credit for as much honesty and sincerity as Senator LaFollette claims for himself," the statement read.

"Senator LaFollette's letter subordinates the tremendous issue of rescuing the government from plutocratic control and the necessity for all honest progressive voters to unite in this crisis by engaging in petty factional contention," said the statement.

Claims Lack of Original Investigation
"On the surface of his statement there is manifest the certainty that it is not the result of original investigation and calm deduction. It is obviously the confident decision that comes from unfair and unjust counsel."

Basil Manley Opposed to Meeting

William Mahoney, the temporary chairman of the third party arrangements, told the United Press he believes Senator LaFollette's letter to Attorney-General Ekers of Wisconsin was inspired by Basil Manley, Washington, who has been opposed to the St. Paul meeting from the start. In the letter LaFollette charged that the convention would be dominated by communists and advised his friends to stay away.

National Committee of Arrangements

The national committee of arrangements consists of William Mahoney, Dr. William A. Schaper, Robert Craemer and C. A. Hathaway. They decided the Farmer-Labor progressive meeting will go on as scheduled. Fifty thousand invitations have been sent all over the country, they said.

The Ultimate Purpose

"The ultimate purpose of organization would be a national political movement in the campaign of 1924, also to lay the foundation for a permanent independent political organization which would represent the wealth-producing elements of the nation," the statement read.

Not Built Around One Individual

"For this reason it must be evident that the movement cannot be built around any individual, but rather must be founded on the united interests of the great masses of people who depend primarily on their labor for a living.

"The sponsors of the June 17 convention were not oblivious to the strategic advantage of having prominent individuals of national character who had the confidence of the people lead in this movement.

Why LaFollette Was the Choice

"This is why Senator LaFollette has been from the very inception the choice of the active proponents of the convention. At the same time the danger of a man like Senator LaFollette becoming a prime factor in the movement was not overlooked. From the very outset the point has been emphasized that this was to be an independent farmer-labor movement and that if Senator LaFollette failed or refused to meet the call of leadership the place necessarily

WAR DEPARTMENT
REVEALS PHASE OF
BERGDOLL KIDNAPING

(By United Press)

Washington, May 29.—The War Department today officially disclosed that the two Americans who attempted to abduct Grover Cleveland Bergdoll, notorious draft dodger, in Eberbach, Germany, in the summer of 1921, were operatives of the department of criminal investigation attached to the American army in Germany.

In requesting congress to appropriate \$200 for payment of damages to a German girl shot during the kidnaping, the War Department admitted the attempt.

The girl injured, Lena Rupp, was in an automobile with Bergdoll, it was explained, when the two operatives, Sergeants Frank Zimmer and Charles Naeg, attempted the seizure. A revolver shot struck the girl in the head. The German foreign office has agreed to accept \$200 as indemnity, the War Department said.

Bridegroom-to-Be Fled
Day Before Ceremony;
Woman Says, Asks \$25,000

Minneapolis, May 29.—Mike Cohn, 24, 1018 Irving ave. n., Minneapolis, disappeared a day before his wedding date, according to a \$25,000 breach of promise suit today by Edna Inman, 24, 5310 Abbot ave. s.

She said he had agreed to marry her Dec. 30, 1922, and disappeared Dec. 29. Christmas day of 1921, she said, he gave her an engagement ring.

His answer, also filed today, admits an engagement, but asserts the ring was merely a Christmas gift. She declares she suffered mental anguish.

would have to be filled by a less prominent person.

Not a One-Man Movement

"The national farmer-labor progressive convention is not a LaFollette or a one-man movement," the statement went on. "It has come into existence in response to the call of millions of voters whose experience under special privilege has driven them to seek relief through independent political action. The need for it continues to exist, and there is no alternative but for it to proceed."

Betrayal of Confidence

"It would be a betrayal of confidence to disappoint a vast number who have been looking forward to June 17 as a day of emancipation. It has been looked upon as a day of reckoning by those who toil.

Dominating Convention

"The charge that communists will dominate the convention is a gross misrepresentation. Every effort has been made to secure delegates from every group. The delegates of Senator LaFollette and his advisors at his call must know that communists constitute only a very small faction of those interested in a national farmer-labor party. Communists make no secret of their aims and freely outline their methods of procedure. They are willing to co-operate and work with the majority. There is no more reason why sincere supporters of a national farmer-labor party should doubt communists than that they should question the sincerity of Senator LaFollette. For many years he has maintained formal affiliations with the republican party, the most infamous political machine ever in control of American government.

Plutocracy Assailed

"For the very reason that Senator LaFollette feels that the time has come for all right-thinking people to join in common interest to break the shackles imposed on the people by plutocracy, it is reasonable to give so-called communists credit for as much honesty and sincerity as Senator LaFollette claims for himself. The power of the communists has been seized as an excuse to force out other progressives in face of the great necessity for a fight for freedom."

The statement was signed by the committee.

LA FOLLETTE MAY
BE INDEPENDENT
CANDIDATE, REPORTSUCH CASE WOULD CREATE
DIVISION IN DEMOCRATIC
VOTEPOLITICIANS ARE SIZING UP THE
NEW YORK SITUATION

(By United Press)

New York, May 29.—The strong intimation of Senator Robert M. La Follette that he will be an independent candidate for president already has started democratic organization leaders along a new line of thought with regard to their nominee—and as particularly affecting the chances of Governor Al Smith.

With LaFollette filing as an independent there would be a marked division of the vote. Democratic leaders believe that with a third candidate of LaFollette's vote-getting strength in the field, their chances of victory at the polls will be measurably increased.

Heretofore organization spokesmen have openly declared and many of the McAdoo supporters have privately stated that Smith, with his strong eastern following, might make the best man to make the race against Coolidge. Their reasoning was based on the belief that with taxes not an issue, with foreign policies awakening little vital interest, and with the bonus bill passed, prohibition inevitably would become a strong factor in obtaining votes. No out-and-out dry candidate could carry New York and the moist states against Coolidge, they contended, but a progressive of Smith's type, particularly one whose record shows him to be in favor of modification of the Volstead law, would make a strong appeal in many states.

Smith supporters have been convinced for some time that he would get a large German vote. This vote was a strong factor in electing Cleveland and re-electing Wilson. Much of the foreign vote always follows the German lead, but with LaFollette running he might well cut heavily into the foreign vote Smith would expect in many cities. In addition, because of his long activity in farm legislation, he would get a heavy foreign vote in the rural sections, which are dry and which Smith would not likely receive.

CATHOLIC CHURCH
IS DEDICATED

(By United Press)

Janesville, Minn., May 29.—St. Anne's Catholic church, recently completed here at a cost of \$30,000 was dedicated today.

Bishop Heffron of Winona and other high dignitaries of the church in Minnesota were here for the ceremonial.

BILL ABOLISHING RAILWAY
LABOR BOARD

(By United Press)

Congress Today

Senate: Debates child labor amendment.
Daugherty investigation.
Mayfield investigation.
Muscle Shoals hearing.
House: Legislative appropriation bill.

Washington, May 29.—House progressives today served notice they would oppose adjournment of congress until an adequate farm relief bill and the Barkley bill abolishing the railway labor board have been passed.

A petition was circulated among members favoring either of these measures and opposing the plan of administration leaders to stop work on June 7.

"We've got the vote to block adjournment," said Representative LaGuardia, New York, who termed the petition "an ultimatum."

Representative Nelson, progressive leader, was less confident, but declared his group proposed to exert all the influence it had to force consideration of these two measures before adjournment.

A meeting of progressives of the senate and house was scheduled for later today to prepare for a united movement in both houses against adjournment.

TRADE UNIONS
WARNED ABOUT
THIRD PARTYAMERICAN FEDERATION OF
LABOR ISSUES A STATE-
MENTSAYS ITS MEMBERS SHOULD HAVE
NOTHING TO DO WITH ST.
PAUL CONVENTION

(By United Press)

Washington, May 29.—The American Federation of Labor today warned all trades unions to be "on guard" and have nothing to do with the St. Paul third party convention next month.

A formal letter, signed by Samuel Gompers and other members of the federation's nonpartisan political committee, declared "a plot had been made to trick you into joining our labor movement and undermine our national institutions," and said that the convention would be directed from Moscow.

GERMAN SUPER-GUN,
RANGE 75 MILES

The German super-gun that pounded Paris during the war is credited with a range of 75 miles, as compared with the 22-mile maximum range of American 14-inch naval guns.

ROYALTY SCARED
AS MUNITION
DUMPS EXPLODEMANY PERSONS KILLED IN
BUCHAREST, CITY FACES RAIN
OF SHELLSSWITCH ENGINE SPARKS STARTED
THE CONFLAGRATION

(By United Press)

Bucharest, May 29.—Many persons were killed and injured and the royal families of Rumania and Greece barely escaped with their lives when munition magazines and artillery dumps near Bucharest blew up in a series of deafening explosions that continued throughout Wednesday.

The city was under fire of a rain of bursting shells which shattered windows in every part of the city and fell in the vicinity of the royal palace. One shell exploded with terrific force on the exact spot where King Ferdinand had stood a few seconds before.

Parliament adjourned as the incessant explosions increased. There was a panic in the schools throughout the city, and these were closed to permit children to seek safety in their homes.

Sparks from a switch engine apparently started the conflagration, igniting a small arms ammunition magazine about two miles from the city.

The first explosion was at 10 a. m. Wednesday. The first dump to go was in the center of a larger one, and the flames spread rapidly, exploding a series of magazines. The blasts kept up irregularly until 4 p. m., when the flames reached the artillery dumps.

Then began a series of deafening explosions and shells began to fall in every direction, some bursting near the royal palace.

King Ferdinand and his war minister, General Maderesco, rushed to the scene of the fire started by the detonation of shells. The general snatched the king back from a particularly dangerous spot and a few seconds later a shell landed just where he had been standing and blew a large hole in the earth.

Residents of Bucharest were in panic. Those in the western part of the city, nearer the dump, fled eastward, many believing the city was being bombarded.

The royal family, with King George and Queen Elizabeth of Greece, who were here in exile, hastily evacuated their summer residence and fled. Shells began to burst shortly afterwards.

Queen Marie of Rumania was not in the country. She is visiting in London.

HOLDUP MAN
AND HIGHJACKERJOHN BURKE, SO ACCUSED, WAS
ARRESTED IN WIN-
NIPEG

(By United Press)

Winnipeg, Man., May 29.—John Burke, alias Tom Dickson, alias Jas. Smith, wanted at Grand Forks, Minn., in connection with a highway robbery committed near that city a few days ago, was arrested late Wednesday by Manitoba provincial authorities.

Burke is well known to Minnesota authorities as a holdup man and highjacker, and a reward of \$100 was offered for his capture. Police were informed today he was in the vicinity of Lockport and the officers were dispatched in automobiles to the scene immediately the information was received. After a short chase Burke was overtaken when he jumped from a moving car, scaled a woodpile and disappeared in a home of a farmer where he was captured.

RELIEF PARTY IN
CHINA ALSO IN
BANDITS' HANDS

(By United Press)

Pekin, May 29.—A relief party, including Americans, proceeding from Wuchow to Kwellin to learn the fate of missionaries reported killed, fell into the hands of bandits, and the would-be rescuers were captured, according to reports from the consulate at Canton to the American legation here today.

The captives included Rev. P. Ray, Baptist, of Richmond, Va., and H. Z. Miller, New York. Vice Consul Chamberlain is proceeding from Canton to assist in obtaining their release. The capture occurred near Tlawang. Two unnamed Britishers also were captured.

CIRCUMSTANTIAL
EVIDENCE GOT
HIS CONVICTIONHARRY HOFFMAN, NEW YORK,
FOUND GUILTY OF MUR-
DERCASE CHARGED A BRUTAL AND
INHUMAN AS-
SAULT

(By United Press)

St. George, Staten Island, May 29.—Harry Hoffman was found guilty of the murder of Mrs. Maude Bauer by a jury here today and sentenced immediately by Judge Tiernan to from 20 years to life in Sing Sing prison.

The jury returned the verdict of guilty of murder in the second degree at 7:10 a. m., after more than 12 hours' deliberation.

Hoffman collapsed, his head in the palm of his hands, when he heard the verdict.

The murder of which Hoffman was found guilty was committed March 2 on a lonely Staten Island road.

Mrs. Maude Bauer was out driving with her mother and two children when her motor car became mired in the mud. She went for aid, and a motorist offered her a lift. There followed an attempt at assault upon the pretty woman, and when she resisted she was shot and her body thrown into the road.

There was no witness to the slaying, and the case built around Hoffman was entirely circumstantial.

NORTH DAKOTA
THANKSGIVING DAY

(By United Press)

Bismarck, N. D., May 29.—A "North Dakota Thanksgiving Day," next fall, if present prospects for a good crop materialize, was urged today before North Dakota merchants by M. M. Goodsell, assistant to the vice-president of the Northern Pacific railroad.

Goodsell would make the event a "great coup d'etat to wipe out all the unfavorable advertising which has been given this state."

He would invite President Coolidge, the secretary of agriculture, ambassadors, representatives of foreign countries, editors of farm journals, newspaper publishers, railroad and bank presidents and others to attend the celebration.

In carrying out the work of advertising North Dakota, the railroad executive proposed to the merchants, daily "setting up exercises," including the practice of optimism, enthusiasm, common sense, hard work, confidence and co-operation.

He urged broadcasting "the truth about North Dakota" by every possible means.

San Antonio, Tex., May 29.—Noble R. Easley, 26, was killed at Kelly field today when an airplane which he was piloting crashed. His home was at Hiwassee, Ark. He graduated from West Point in 1923.

PROPERTY LOSS
MAY RUN TO
OVER \$100,000TWISTER SWEEPED PATH BLOCK
WIDE THROUGH WEST
WETUMKAWIRE COMMUNICATION IN THAT
SECTION OF STATE DIS-
RUPTED

(By United Press)

Wetumka, Okla., May 29.—Twelve known dead, more than 50 injured, several missing and property damage estimated at \$100,000 was the toll of cyclones which scourged northeastern Oklahoma last night.

West Wetumka was hardest hit. The twister swept a path a block wide and five blocks long through the residential district. Ten were killed outright and 40 injured. Fourteen of the most seriously injured were taken to hospitals at Henrietta.

Wire communication throughout this section of the state is disrupted.

Red Cross representatives arrived today to help in caring for the injured and take the place of relief workers who labored through the night searching the debris for victims.

Physicians from surrounding towns arrived during the night and the situation was orderly today when the national guard unit and the American Legion took charge.

SOLEMN PROTEST
OF JAPAN NOW
AT WASHINGTONAS SOON AS TRANSLATED, AM-
BASSADOR HANIHARA WILL
PRESENT ITSECRECY AT THE JAPANESE EM-
BASSY AS TO ITS CON-
TENTS

(By United Press)

Washington, May 29.—Japan's note making a "solemn protest" to the United States against the immigration law excluding Japanese arrived at the embassy here today.

As soon as decoded, translated and put into shape, Ambassador Hanihara will present it to the state department, probably today.

Certain considerations, however, may hold it up until later. High American officials are anxiously waiting to learn the nature of the note, which is expected to be worded in strong terms.

Before Secretary Hughes replies to the note he will discuss with President Coolidge the serious situation that has developed in relations between the United States and Japan.

Secrecy is maintained at the Japanese embassy concerning the contents of the communication. It is believed, however, that its purpose is to produce a response from the American government so that an exchange of notes can be published showing the exact positions of the two nations.

In private conversations the Japanese freely confess fear of the consequences of publication of the note and possible American reply may have on public opinion in the two countries. No decision has been made with regard to the publication of the notes, however.

Minneapolis, May 29.—The Tommy O'Connor taken here last night is not Chicago's notorious slayer, Chief of Detectives Frank Brunskill said today. Chicago's Tommy had brown eyes and the man held here has blue eyes, Brunskill said. The man had not been released at a late hour however, and no official statement was issued.

QUESTION THE SINCERITY OF SEN. LA FOLLETTE

STATEMENT MADE
BY THE COMMITTEE
IN ST. PAUL TODAY

CENTRAL EXECUTIVE COMMITTEE FOR JUNE 17 CONVENTION

SAYS MOVEMENT CANNOT BE DIVERTED BY THE SENATOR

(By United Press)

(By United Press)
Pekin, May 29.—A relief party, including Americans, proceeding from Wuchow to Kwelin to learn the fate of missionaries reported killed, fell into the hands of bandits, and the would-be rescuers were captured, according to reports from the consulate at Canton to the American legation here today.

The captives included Rev. P. Ray, Baptist, of Richmond, Va., and H. Z. Miller, New York. Vice Consul Chamberlain is proceeding from Canton to assist in obtaining their release. The capture occurred near Tlawang. Two unnamed Britishers also were captured.

CIRCUMSTANTIAL
EVIDENCE GOT
HIS CONVICTION

HARRY HOFFMAN, NEW YORK, FOUND GUILTY OF MURDER

CASE CHARGED A BRUTAL AND INHUMAN ASSAULT

(By United Press)
St. George, Staten Island, May 29.—Harry Hoffman was found guilty of the murder of Mrs. Maude Bauer by a jury here today and sentenced immediately by Judge Tiernan to from 20 years to life in Sing Sing prison. The jury returned the verdict of guilty of murder in the second degree at 7:10 a. m., after more than 12 hours' deliberation.

Hoffman collapsed, his head in the palm of his hands, when he heard the verdict.

The murder of which Hoffman was found guilty was committed March 2 on a lonely Staten Island road. Mrs. Maude Bauer was out driving with her mother and two children when her motor car became mired in the mud. She went for aid, and a motorist offered her a lift. There followed an attempt at assault upon the pretty woman, and when she resisted she was shot and her body thrown into the road.

There was no witness to the slaying, and the case built around Hoffman was entirely circumstantial.

NORTH DAKOTA
THANKSGIVING DAY

(By United Press)
Bismarck, N. D., May 29.—A "North Dakota Thanksgiving Day," next fall, if present prospects for a good crop materialize, was urged today before North Dakota merchants by M. M. Goodsell, assistant to the vice-president of the Northern Pacific railroad.

Goodsell would make the event a "great coup d'etat to wipe out all the unfavorable advertising which has been given this state."

He would invite President Coolidge, the secretary of agriculture, ambassadors, representatives of foreign countries, editors of farm journals, newspaper publishers, railroad and bank presidents and others to attend the celebration.

In carrying out the work of advertising North Dakota, the railroad executive proposed to the merchants, daily "setting up exercises," including the practice of optimism, enthusiasm, common sense, hard work, confidence and co-operation.

He urged broadcasting "the truth about North Dakota" by every possible means.

San Antonio, Tex., May 29.—Noble R. Easley, 26, was killed at Kelly field today when an airplane which he was piloting crashed. His home was at Hiwassee, Ark. He graduated from West Point in 1923.

PROPERTY LOSS
MAY RUN TO
OVER \$100,000

TWISTER SWEEP PATH BLOCK WIDE THROUGH WEST WETUMKA

WIRE COMMUNICATION IN THAT SECTION OF STATE DISRUPTED

(By United Press)
Wetumka, Okla., May 29.—Twelve known dead, more than 50 injured, several missing and property damage estimated at \$100,000 was the toll of cyclones which scourged northeastern Oklahoma last night.

West Wetumka was hardest hit. The twister swept a path a block wide and five blocks long through the residential district. Ten were killed outright and 40 injured. Fourteen of the most seriously injured were taken to hospitals at Henrietta.

Wire communication throughout this section of the state is disrupted. Red Cross representatives arrived today to help in caring for the injured and take the place of relief workers who labored through the night searching the debris for victims.

Physicians from surrounding towns arrived during the night and the situation was orderly today when the national guard unit and the American Legion took charge.

SOLEMN PROTEST
OF JAPAN NOW
AT WASHINGTON

AS SOON AS TRANSLATED, AMBASSADOR HANIHARA WILL PRESENT IT

SECRECY AT THE JAPANESE EMBASSY AS TO ITS CONTENTS

(By United Press)
Washington, May 29.—Japan's note making a "solemn protest" to the United States against the immigration law excluding Japanese arrived at the embassy here today.

As soon as decoded, translated and put into shape, Ambassador Hanihara will present it to the state department, probably today.

Certain considerations, however, may hold it up until later. High American officials "are anxiously waiting to learn the nature of the note, which is expected to be worded in strong terms."

Before Secretary Hughes replies to the note he will discuss with President Coolidge the serious situation that has developed in relations between the United States and Japan.

Secrecy is maintained at the Japanese embassy concerning the contents of the communication. It is believed, however, that its purpose is to produce a response from the American government so that an exchange of notes can be published showing the exact positions of the two nations.

In private conversations the Japanese freely confess fear of the consequences of publication of the note and possible American reply may have on public opinion in the two countries. No decision has been made with regard to the publication of the notes, however.

Minneapolis, May 29.—The Tommy O'Connor taken here last night is not Chicago's notorious slayer, Chief of Detectives Frank Brunskill said today. Chicago's Tommy had brown eyes and the man held here has blue eyes, Brunskill said. The man had not been released at a late hour however, and no official statement was issued.

A program and clothes pin social will be given at the East Oak Lawn school, Dist. 114, on Saturday evening, May 31st, at 8:30 P. M.

Ladies please bring dressed clothes pins and a box lunch for two. Everybody is welcome.

Married Women Bob Hair.

In New Guinea the single young woman lets her hair hang about her shoulders in all its glory, but immediately after marriage she must have it "bobbed."

MOTOR BUS

COMPETITION

(By United Press)

St. Cloud, Minn., May 29.—Motor bus competition is blamed here for the petition of the Great Northern railway for permission to discontinue two local trains between the Twin Cities and St. Cloud.

Members of the state railroad and warehouse commission were here today for a hearing at the Commercial club rooms on the railroad's petition.

The trains are passengers Nos. 5 and 6, running local. Great Northern officials contend that other trains provide adequate service on the line and that the trains in question are unnecessary. Towns in between, served by the trains, are expected to enter violent protest.

COOL—CLEAN—WELL-DRESSED

THAT'S the way you want to feel this summer. And you want to know that you're getting your money's worth and style worth from clothes. Send 'em here.

THURSDAY, MAY 29, 1924.

LATIN AMERICAN TRADE INCREASING

ACCORDING to the Department of Commerce the trade of the United States with Latin America in the calendar year 1923 amounted to \$1,744,000,000, an increase of 121 per cent over that of the fiscal year 1913-14, which closed just before the World War started, and 26 per cent over the calendar year of 1922.

Our imports, \$1,050,000,000 were greater by 115 per cent than in 1913-14 and 29 per cent greater than in 1922. Exports increased by 130 per cent over the pre-war year 1913-14 and nearly 25 per cent over 1922, amounting to \$694,000,000.

"By reason of its growth in the past, its promise of the future," says the Department, "and more particularly the diversity of products entering into it, this trade is a matter of increasing interest, not only to our manufacturers and exporters but to our whole population."

All of the Latin American countries are in that state of economic development where the energies of the people are chiefly devoted to the production of raw materials rather than of manufactured goods. An interesting feature in the trade of the different regions is the specialization of each in some product and the consequent dependence of their prosperity on foreign markets. Notable examples are sugar in Cuba; nitrate in Chili; wheat, wool, meat and hides in the River Plate countries; coffee in southern Brazil and the Caribbean region; bananas in Central America. The needs of the Latin Americas are for the finished products of the world, and in such lines America is enjoying an ever increasing trade with their neighbors.

Not only in trade lines are we linking up with this country, but large press associations like the United Press, which serves the Dispatch, pay considerable attention to South American news. A Brazilian newspaper scored a beat on all the world when the United Press cabled it the full text of the Dawes commission report and the newspaper translated it and published the same.

In sports one need turn back but a short time and recall the entrance of Luis Angel Firpo and how he almost hewed out a heavyweight crown when he blasted Dempsey from the squared circle.

CARS, NOT CLOTHES

THE desire to possess a car and the added expense of the necessary upkeep entailed may throw the family budget out of balance. An unusual condition is reported in Wichita, Kansas, where scores of children were forced to do without clothing, even to the extent of being in dire need, all on account of the family's motor-car upkeep. This fact came to light here recently when a committee of Elks began investigating the circumstances of families whose children had been registered as worthy of charitable gifts in the nature of clothing.

A large number of children reported immediately following the announcement by the Elks lodge that a \$2,000 fund had been provided for the purchasing of clothing to be given needy children. "The odd part of it all was the fact that in most cases the children were really destitute of clothing despite the fact that 60 per cent of the families registered owned automobiles," declared the chairman of the investigating committee.

The trouble on cars resulted because all had bought at the height of prosperity and suffered reverses when thrown out of employment, leaving the car not entirely paid for. To save the car, they cut down on clothing expenses and other necessities.

But the argument on the other hand asserts itself and that is this: the motor car of moderate price has become a family necessity. The man of the house often drives to his work. The whole family uses it for recreation. It is getting to be as much a part of the household which can afford it, as the sewing machine, the phonograph, the church donation, the telephone, the movie tickets, the grocer's bill, the butcher's statement and dry goods merchant. The unfortunate affair in Wichita would not have occurred had there not been a turn in economic affairs, throwing the wage earner out of work.

How much of a lake region would we have around Brainerd without the cars to travel to the lake home or lake resort. In the days of horse and wagon travel, it took experienced lake dwellers two days to travel with equipment and supplies to the old club house on Gull lake. The trip now is made in half an hour.

STICKING TO HIS POST OF DUTY

CONGRESSMAN HAROLD KNUTSON is sticking to his post in Washington, while he naturally wants to be visiting his district in this primary contest. His faithfulness should be appreciated by his constituents. He was the victim of a most unfortunate episode, but his innocence was conclusively proven and there should be a reaction in his favor—notwithstanding the attempts of some of his political opponents to mislead the voters. His friends should take it upon themselves to work the harder for him, while he remains in Washington serving his district. He has been a most efficient member, has promptly and efficiently attended to all requests, and is of remarkable service to many individuals in his district, and especially to the old soldiers and veterans of the world war. No request for help has been overlooked, forgotten or ignored by him. He could be of much greater service to the people than any new man that could be sent to congress. The time to be a friend to a worthy man is when he needs it, and there is need just now to get behind him and give him the primary nomination by so large a majority that his election will be assured.—St. Cloud Daily Journal-Press.

COPIES of regulations for street safety distributed among the children of the Quincy school, Boston, not only helped the children to understand how to use the streets, but were the means of helping their parents to learn some of the ways of their new country. The school is in a congested part of the city and includes children of 30 different nationalities.

SAYS the Troy Times, "Mr. McAdoo coolly and skilfully assumes to be the residuary legatee of the Wilson policies. He seems to wish to be considered not only as a son-in-law but an heir-at-law."

SOVIET RUSSIA financiers say they may pay up some of their debts if somebody will make them a loan.

SHOULD OPEN OUR
BOOK OF DUTIES

And Lay Aside Our Bill of Rights,
 Says Curtis M. Johnson
 in Address

FAVORS RIGID ECONOMY

Cited Numerous Leaks and Needless
 Expenditure of State
 Money

"It is time that we lay aside our Bill of Rights, and open our book of Duties," said Curtis M. Johnson, candidate for governor, who spoke at Gregory park on Wednesday evening.

Mr. Johnson's address was the kind that would be expected from a business man. It dealt with business matters that concern government administration, declaring himself for a program of rigid economy in handling the government of the state.

He cited numerous leaks and needless expenditures of state money, offering solutions for this condition which he hopes to put into force if elected governor.

Mr. Johnson touched on the Farmer-Labor movement, pointing out that the two factions, farmer and labor, who have combined their interests, have little or nothing in common. He stated that farmers throughout his district are anxious to identify themselves with the republican party, if this party outlines a program of economy which would tend to lower taxes.

The speaker declared himself as being against the primary election law as it now obtains in Minnesota. By this method many minority candidates are placed in nomination because so many are allowed to enter the field for one office. He favors the placing of party responsibility thru conventions.

Some two hundred heard Mr. Johnson speak, and all were very enthusiastic over the policies outlined and the masterly way in which the speaker advanced his arguments, it being evident that he has made a careful study of existing conditions and a remedy for existing evils.

There was some confusion as to where the address would be delivered, Gregory park was not lighted so late that many thought the address was to be given downtown.

Crosby has asked Mr. Johnson to speak in that village soon, and he will deliver an address there on Saturday, June 7th. He has been asked to deliver an address in Brainerd on July 4th.

Mr. Johnson went to St. Cloud Thursday morning, where he spoke at noon, and then went on to the cities to be in attendance at a meeting of the board of directors of the state

fair association of which he is president.

Mr. Johnson's home is at Rush City where he is engaged in the hardware and implement business, of which he has made a signal success. He is also a farmer of no mean ability, so that he understands the problems of both business man and farmer.

MRS. F. W. WITTICH WANTS EFFICIENCY

Also Economy in a "Re-organization
Of Our State Gov-
ernment"

ADVOCATES BUDGET AGENCY

Points Out Many Things She Claims
Can Be Remedied

An attentive, intelligent and representative audience attended the League of Women Voters' after dinner speech at the Episcopal church last evening. After a very appetizing and satisfactory dinner, Mrs. F. W. Wittich spoke on "Re-organization of Our State Government."

She began by giving the personnel of the Interim Commission that was appointed by the last legislature to investigate the alleged duplication and extravagance in the various departments, and stated that it was a very satisfactory committee. She gave something of their plan of work which consisted of sending detailed questionnaires to each department and holding hearings which amounted to cross questioning the heads of departments. By this means, it was disclosed that each department gets as large an appropriation as it can possibly squeeze out of the legislature. Instead of co-ordination, there is competition between the different departments to see which can spend the most of the people's money and there are between ninety and one hundred of these departments doing it. It is no wonder that we have a larger state tax this year than any year except one, which was during the war.

No big graft was exposed, but nu-

merous petty grafts, such as sending four members of one department to a convention in New York, paying their expenses at the Waldorf-Astoria for a week, sending them on a junket to Washington and then back to New York again for a few days—all at the expense of the department. Even if the department benefitted by the information secured on such a trip, which it probably did, Mrs. Wittich admitted, four men were not needed to collect it. Multiply such expenses, which amounted to several hundred dollars, by the number of departments, and one can readily see where our tax money goes. Mrs. Wittich made it very clear that the state's money was well safeguarded. There are checks and balances that make any big leak practically impossible. But if every faucet in a big office building drips constantly it will appreciably affect the water bill. Many little rivulets make a river,

and the taxpayers are supplying the river.

Budget Agency Needed

Mrs. Wittich said that there should be a budget agency to see that budgets are uniform and that each department keeps within its budget. As an illustration of how the various boards compete, instead of co-ordinating for the accomplishment of a single purpose, she cited the educational boards. She said that the teachers' colleges complained that they were not getting their share of the educational appropriation and when she told her husband that, he declared that they were getting the lion's share and leaving the University in the lurch. Dr. Wittich is a professor in the university. Now, said the speaker, we are not interested in the particular share of each of our educational institutions, so long as each gets a just share, but there should be some single agency

to determine what each should have. It is the fact that there is no standard so that it can best serve its purpose. Location of employment. Typists, for instance, get double the salary in one department than they do in another. Another bad situation that has been disclosed by the investigations (Continued on Page 5)

She gave something of their plan of work which consisted of sending detailed questionnaires to each department and holding hearings which amounted to cross questioning the heads of departments. By this means, it was disclosed that each department gets as large an appropriation as it can possibly squeeze out of the legislature all of its appropriation and lature. Instead of co-ordination, there is competition between the different departments to see which can spend the most of the people's money and there are between ninety and one hundred of these departments doing it. It is no wonder that we have a larger state tax this year than any year except one, which was during the war.

No big graft was exposed, but nu-

merous petty grafts, such as sending four members of one department to a convention in New York, paying their expenses at the Waldorf-Astoria for a week, sending them on a junket to Washington and then back to New York again for a few days—all at the expense of the department. Even if the department benefitted by the information secured on such a trip, which it probably did, Mrs. Wittich admitted, four men were not needed to collect it. Multiply such expenses, which amounted to several hundred dollars, by the number of departments, and one can readily see where our tax money goes. Mrs. Wittich made it very clear that the state's money was well safeguarded. There are checks and balances that make any big leak practically impossible. But if every faucet in a big office building drips constantly it will appreciably affect the water bill. Many little rivulets make a river, and the taxpayers are supplying the river.

Budget Agency Needed

Mrs. Wittich said that there should be a budget agency to see that budgets are uniform and that each department keeps within its budget. As an illustration of how the various boards compete, instead of co-ordinating for the accomplishment of a single purpose, she cited the educational boards. She said that the teachers' colleges complained that they were not getting their share of the educational appropriation and when she told her husband that, he declared that they were getting the lion's share and leaving the University in the lurch. Dr. Wittich is a professor in the university. Now, said the speaker, we are not interested in the particular share of each of our educational institutions, so long as each gets a just share, but there should be some single agency to determine what each should have.

is the fact that there is no standard- ization of employment. Typists, for instance, get double the salary in one department than they do in another. Another bad situation that has been disclosed by the investigations (Continued on Page 5)

ELECTRIK MAID BAKERY CHANGE

S. N. Thams Sells Bakery to Fred Kretzschmar of Perham and Emil Puff of St. Cloud

ARE EXPERIENCED BAKERS

Will Further Increase Service of Bakery and Add Several New Lines of Baked Goods

The Elektrik Maid bakery is under new management. S. N. Thams, the former owner, selling to Fred Kretzschmar of Perham and Emil Puff of St. Cloud.

The new owners are both experienced bakers, Mr. Puff having been employed in that capacity with the Elektrik Maid shop for the past few months, and previous to that with several of the large bakeries of St. Cloud.

Mr. Thams started the local bakery early last fall, and has enjoyed a good patronage in the short time that he has been in the city.

It is the intention of the new proprietors to still further increase the service of the bakery and to add several new lines of baked goods.

MRS. F. W. WITTICH
WANTS EFFICIENCY

Continued from Page 4

others. Some give their stenographers two weeks' vacation on full pay and some allow more. There is also discrimination between men and women employees. As an illustration of what can be saved by the standardization of employment and by raising the efficiency requirement, she cited Pennsylvania. She said Governor Pinchot insisted that equal pay be given for equal work, regardless of sex, but that strict regulations be made as to hours, vacations, etc. This made an appreciable initial increase in their employment budget, but reduced the number of employees and weeded out the inefficient to such an extent that of the twenty-nine million dollars that the state will save, in two years, through reorganization, one-eighth will be saved through the standardization of employment.

Numerous Inspectorships.

Another considerable leak is in the numerous inspectorships. Mrs. Wittich said she didn't want to be misunderstood. We didn't get too much inspection—but we had too many inspectors. One man could easily do the work of several, except in cases where expert training was needed, as in grain inspection. This would save tremendously in overhead.

Deficiency Appropriation Bill.

The situation that confronts the legislature at present is that one of its first duties is to pass a deficiency appropriation bill. A department will spend all of its money and then, as soon as the legislature meets, it will say: "If you don't give us more money, we will have to shut up shop." Of course the business of the state cannot go on with several of its departments not functioning, so they pass a deficiency appropriation bill, with the expectation of cutting down the regular appropriation for these departments. But, so long as there is no pressure brought to bear to com-

pel these departments to keep within their appropriations, they simply exceed them again, and then go before the next legislature for another deficiency appropriation.

Re-organization Proposed

Mrs. Wittich closed by suggesting the kind of reorganization that would probably be proposed. She said there would be no constitutional change, and regard would be paid to what might be called our state traditions. But three things were necessary to any effective reorganization—a reduction in the number of departments, standardization of employment, and budget reform.

Curtis Johnson

As Curtis Johnson of Rush City, was present at the dinner, and as the object in bringing the question of re-organization before the people at this time is so that they may nominate a governor who will help and not hinder such a program, Mr. Johnson was asked to state his position on this important question.

He said he stood for reform along the very lines Mrs. Wittich had outlined, that he believed the business

of the state should be run just as economically and as carefully as a private business, and he believed that his record in running the state fair would prove that he had been successful in running public business. In fact, the chief plank in Mr. Johnson's platform seemed to be state reorganization along business lines.

Devils Lake, N. D., May 29.—The Luther League convention and Choral Union opened here today for a three day session.

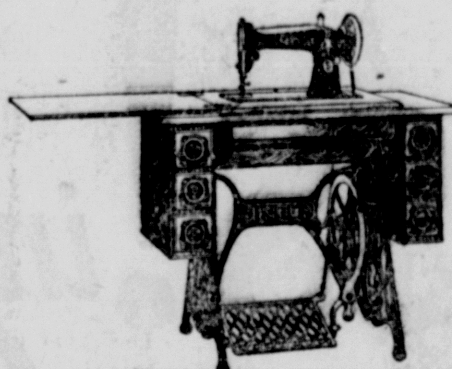

St. Paul, May 29.—The St. Paul Rotary club yesterday noon entertained 50 presidents and secretaries of ninth district Rotary clubs.

The Rotarians were in the Twin Cities for a two-day executive session in Minneapolis.

The address of welcome was given by William Oppenheimer, and other speakers included William Spensley, president, Hibbing club; O. B. McClintock, Minneapolis, retiring governor; Edward Flynn, governor-elect and that the trains in question are son, (N. D.) club.

TODAY—Ride in this Remarkable Six

Now here's a car to put the song of the open in your heart!

HERE is the open of the country, the quiet of star-leavened skies, the power of a thousand giants to transport you magically to the land of dreams-come-true.

A car world-famous and distinguished, the product of a vehicle-maker internationally acclaimed for the supreme in fine carriages since the days of Lincoln and Grant.

All the luxuries of a fine car—for it is a fine car. The same steel, the same engineering as the most costly Studebaker models—and that means the best men know. The same ease of handling, the same quiet, smooth operation, long life, low upkeep cost.

Now ride in it. Note its quick response to the slightest touch of the accelerator. Feel

the thrill of its tremendously powerful six-cylinder motor. Mark its ease of handling, its comfort, its fine car refinements.

Then note its price is well within the limits of economy—the cost of upkeep low. The terms of payment liberal. It offers the supreme value of today in the \$1000 field.

We invite you to take out a Light-Six model for comparison with other cars at near its price. Then with cars selling for several hundred dollars more. We'll place a Light-Six at your disposal for this purpose any time you name.

Buy no car at \$500 or more without making this test. Don't buy blindfolded.

W. C. T. U. CONTEST OF ESSAYS CLOSED

Schools and Grades, all Above the Fifth, Participated in Contests

LIST OF PRIZE WINNERS

First Prize Winners to Have Essays Entered in State Competition

(Contributed)

Those schools and grades (all above the fifth) who participated in the essay contest held by the W. C. T. U. during the past school year have handed in work that is worthy of commendation and highest praise, both on the part of teachers and pupils.

The W. C. T. U. feel more than repaid for the time, money and effort expended in getting this essay contest under way and brought to a successful close. The one hope and aim is to get all the schools of the city interested and at work during the 1924-25 contest that the winners for the entire city may be determined, and every child of eligible grades have a chance to try for the prizes, local and state.

The topics given out by the state department are very timely and vital to the young people and it is believed there is no better time to impress and emphasize the evils of tobacco and alcohol than during the school years.

The Prize Winners

The pupils who won the local contest are as follows:

Sixth Grade, 1st prize—Harry Bellmuth, Lincoln school, \$2.00; 2nd prize, Verna Palmer, Lowell school, \$1.00.

Seventh Grade, 1st prize, Evolda Carlson, Lincoln school, \$2.00; 2nd prize, John Lowey, Whittier, \$1.00. Eighth Grades, 1st prize, Milford W. Downie, Jr., Whittier, \$2.00; 2nd prize, Irene Molstad, Washington, \$1.00.

Mixed, 1st prize, Mary Siegel, Washington, \$3.00; 2nd prize, Mildred Hagberg, Washington, \$2.00.

Freshmen, 1st prize, Howard Nicholson, \$3.00; 2nd prize, Marian Liners, \$2.00.

Sophomores, 1st prize, Lucille Cutler, \$3.00; 2nd prize, Gladys Babcock, \$2.00.

Juniors, 1st prize, Ellen Johnson, \$3.00; 2nd prize, Sylvia Gordon, \$2.00.

Seniors, 1st prize, Clarence Brown, \$3.00; 2nd prize, Howard Storzbach, \$2.00.

Those who won the first prize in the local contest will have their essays forwarded to the state department to compete for the state prizes.

which are even more generous than the local.

Some Extracts Given

Here are some extracts taken from the work handed in. A Sixth grader says:

"I am a boy in the Sixth grade. I do not use tobacco because it is poisonous. Tobacco stunts the growth and deadens the sense of taste."

A girl adds: "The smoke inhaled from a cigar or cigarette hardens the mucous membrane and farther down the windpipe the smoke goes into the lungs—from there the nicotine goes into the blood and is carried to all parts of the body."

An Eighth grader says: "Liquor is as old as King Tut. First traces are found in the Bible. Solomon says 'Wine is a mocker, strong drink is raging, and whosoever is deceived thereby is not wise.' Down through the ages alcohol has been a curse to the people. Many an otherwise bright man's brain has been muddled and ruined by alcohol. This is what might be called 'an age of accidents' probably because there are so many cars, but mostly because there are so many drunken drivers." As a cure he offers, "We have the Eighteenth Amendment, it should be more rigidly enforced. Fines do not stop it. Fines, imprisonment and confiscation

of drunken drivers' cars might."

Another adds that alcohol shortens the sight and lessens the hearing, therefore the many accidents. In many places of employment, men who take alcohol are assigned unimportant places or not hired at all because alcohol makes them careless and often dishonest.

A Freshie states this: "Tobacco has caused more heart trouble, insanity, criminals, broken homes and bandits than anything ever heard of beside liquor."

Another says, "A boy who begins cigarette smoking before he is fifteen never enters the life of the business arena. When other boys take hold of the world's work, he is in the way of the undertaker and the sexton. It is said by scientists that there is enough poison in one pound of tobacco to kill 300 men if taken in such a way as to secure full effects."

Another Freshman says: "The state rules for athletics say that no boy is allowed to participate in any kind of athletics if he is a user of tobacco. However some boys follow this rule only when under the coach's eye, which shows that the willpower is lessened when under the influence of the smoking habit. Since 1,500 boys start smoking every day, will

the greater part of the U. S. population be flat-chested, puny weaklings in another generation? God forbid. The one thing to do is to declare war on tobacco with the intention of getting it under reasonable control. This change is probably looked upon as an impossibility. Was not the Volstead act also at one time? Let more of us have a vision and a faith as this lad. Keep at it, boy, we will soon need a number of congressmen of your type.

Listen folks, this young lady has informed herself, and tell us, "Of

all the forms of tobacco, cigarettes are the most harmful because, besides being made of old and unclean odds and ends of tobacco, they are flavored with opium, belladonna and other poisonous drugs. Arsenic and alum are used in making the papers."

Another cites this experiment: "Look in a pipe that has been used for some time and notice the thick brown coating. Then think what the mouth, throat and nostrils of a tobacco user looks like." "Tobacco causes many permanent diseases as paralysis, insanity, heart disease and

cancerous diseases of the lips, tongue, throat and lungs." "Hugh Jennings, 'Detroit Tigers' manager, declares, 'I can recall more than 100 men who are recognized as stars in baseball who never used a cigarette or any alcoholic beverage. My advice to young men is to control and steel himself against any form of dissipation, and his future success will not be questioned.'"

A Senior declares, "Intoxicating liquors and modern industry must be forever separated if we progress as in the past. The common laborer and

the skilled laborer can be likened to a three-legged stool, if one of the legs is broken the stool will fall. The same with industrial organizations if an employe is not one hundred percent efficient, the organization's efficiency decreases. The chain is no stronger than its weakest link."

Another Senior says, "Not only is it a crime against man to violate the 18th amendment, but it is a crime against God to violate those laws which he has made regulating that most wonderful piece of machinery, (Continued on page 8)

Brainerd, Minn.
Dear Sirs:

Having returned to Brainerd I feel that it is due you to let you know how the Hup. Sport Model has performed and how much I appreciate the service it has given me.

We left here about one year ago on our trip east and west and we have driven about 30,000 miles over all kinds of roads including about all of the mountain roads in California and the mud of Missouri and we have not had one moment's trouble with the car in any way. Two of the original tires are still on the car.

The only expense the car has been to me is, two sets of brake bands, the carbon removed and the valves ground once.

Coming home we drove from Los Angeles, Calif., to Brainerd in 10½ days, a distance of 2750 miles, so you can readily figure out how much trouble we had coming home.

Hoping this will be of interest to you, I am,

Yours very truly,

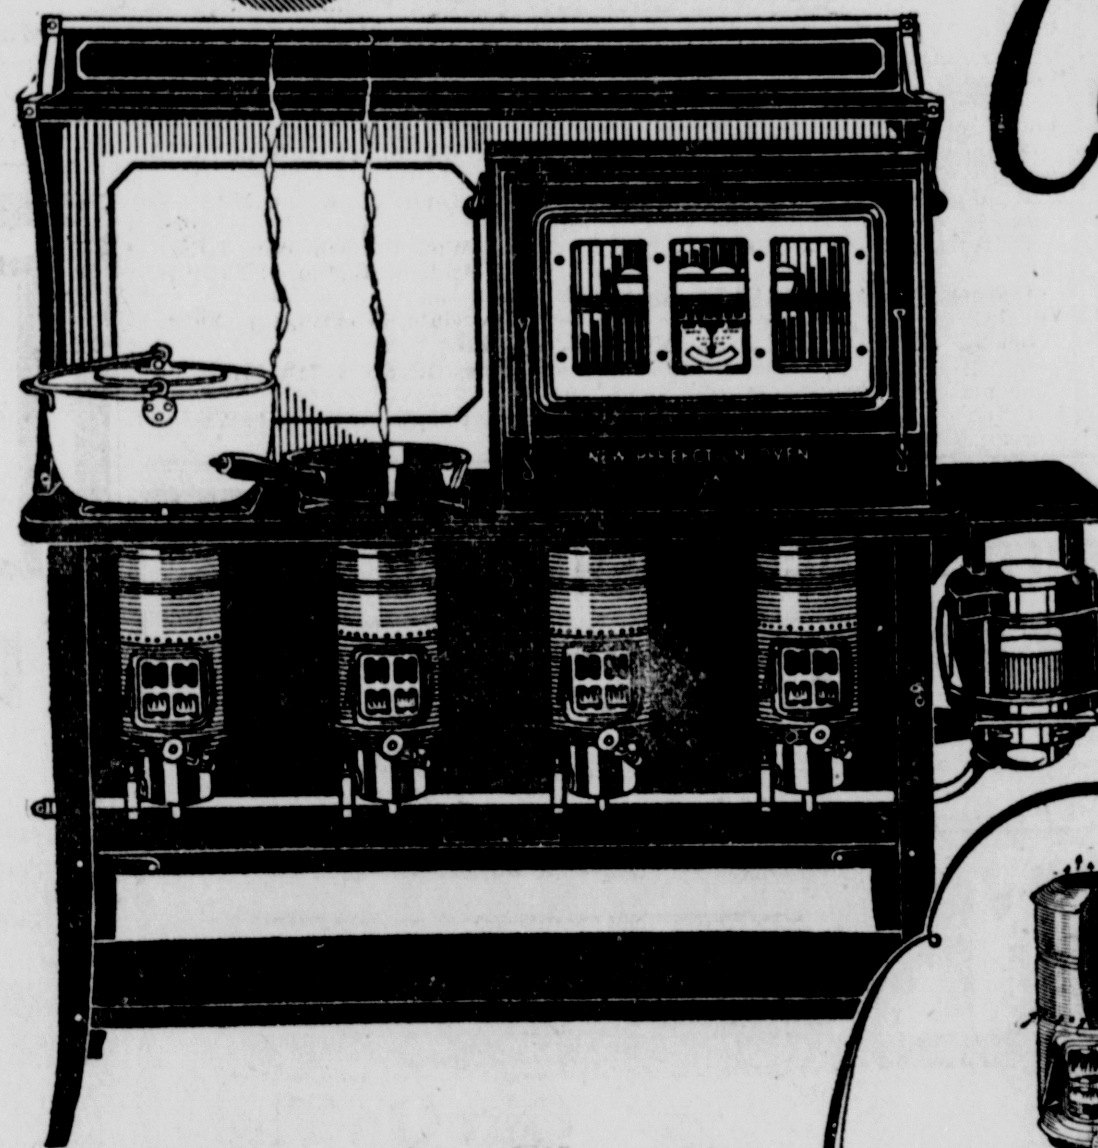

DR. ROY WILLIAMS.

New
Blue Chimney Burner
Faster—More Economical

The remarkable increase in cooking heat and the greater fuel economy of this new burner, are due to its new double-wall, double-draft construction.

The picture above shows how the EXTRA volume of air drawn in through the small holes around the chimney, is converted into an ADDED ring of intense cooking heat. This quicker cooking cuts down fuel consumption.

W. C. T. U. CONTEST OF ESSAYS CLOSED

Schools and Grades, all Above the Fifth, Participated in Contests

LIST OF PRIZE WINNERS

First Prize Winners to Have Essays Entered in State Competition

(Contributed)

Those schools and grades (all above the fifth) who participated in the essay contest held by the W. C. T. U. during the past school year have handed in work that is worthy of commendation and highest praise, both on the part of teachers and pupils.

The W. C. T. U. feel more than repaid for the time, money and effort expended in getting this essay contest under way and brought to a successful close. The one hope and aim is to get all the schools of the city interested and at work during the 1924-25 contest that the winners for the entire city may be determined, and every child of eligible grades have a chance to try for the prizes, local and state.

The topics given out by the state department are very timely and vital to the young people and it is believed there is no better time to impress and emphasize the evils of tobacco and alcohol than during the school years.

The Prize Winners

The pupils who won the local contest are as follows:

Sixth Grade, 1st prize—Harry Bellmuth, Lincoln school, \$2.00; 2nd prize, Verna Palmer, Lowell school, \$1.00.

Seventh Grade, 1st prize, Evolda Carlson, Lincoln school, \$2.00; 2nd prize, John Lowey, Whittier, \$1.00. Eighth Grades, 1st prize, Milford W. Downie, Jr., Whittier, \$2.00; 2nd prize, Irene Molstad, Washington, \$1.00.

Mixed, 1st prize, Mary Siegel, Washington, \$3.00; 2nd prize, Mildred Hagberg, Washington, \$2.00.

Freshmen, 1st prize, Howard Nicholson, \$3.00; 2nd prize, Marian Liners, \$2.00.

Sophomores, 1st prize, Lucille Cutler, \$3.00; 2nd prize, Gladys Babcock, \$2.00.

Juniors, 1st prize, Ellen Johnson, \$3.00; 2nd prize, Sylvia Gordon, \$2.00.

Seniors, 1st prize, Clarence Brown, \$3.00; 2nd prize, Howard Storzbach, \$2.00.

Those who won the first prize in the local contest will have their essays forwarded to the state department to compete for the state prizes.

which are even more generous than the local.

Some Extracts Given

Here are some extracts taken from the work handed in. A Sixth grader says:

"I am a boy in the Sixth grade. I do not use tobacco because it is poisonous. Tobacco stunts the growth and deadens the sense of taste."

A girl adds: "The smoke inhaled from a cigar or cigarette hardens the mucous membrane and farther down the windpipe the smoke goes into the lungs—from there the nicotine goes into the blood and is carried to all parts of the body."

An Eighth grader says: "Liquor is as old as King Tut. First traces are found in the Bible. Solomon says 'Wine is a mocker, strong drink is raging, and whosoever is deceived thereby is not wise.' Down through the ages alcohol has been a curse to the people. Many an otherwise bright man's brain has been muddled and ruined by alcohol. This is what might be called 'an age of accidents' probably because there are so many cars, but mostly because there are so many drunken drivers." As a cure he offers, "We have the Eighteenth Amendment, it should be more rigidly enforced. Fines do not stop it. Fines, imprisonment and confiscation

of drunken drivers' cars might."

Another adds that alcohol shortens the sight and lessens the hearing, therefore the many accidents. In many places of employment, men who take alcohol are assigned unimportant places or not hired at all because alcohol makes them careless and often dishonest.

A Freshie states this: "Tobacco has caused more heart trouble, insanity, criminals, broken homes and bandits than anything ever heard of beside liquor."

Another says, "A boy who begins cigarette smoking before he is fifteen never enters the life of the business arena. When other boys take hold of the world's work, he is in the way of the undertaker and the sexton. It is said by scientists that there is enough poison in one pound of tobacco to kill 300 men if taken in such a way as to secure full effects."

Another Freshman says: "The state rules for athletics say that no boy is allowed to participate in any kind of athletics if he is a user of tobacco. However some boys follow this rule only when under the coach's eye, which shows that the willpower is lessened when under the influence of the smoking habit. Since 1,500 boys start smoking every day, will

the greater part of the U. S. population be flat-chested, puny weaklings in another generation? God forbid. The one thing to do is to declare war on tobacco with the intention of getting it under reasonable control. This change is probably looked upon as an impossibility. Was not the Volstead act also at one time?" Let more of us have a vision and a faith as this lad. Keep at it, boy, we will soon need a number of congressmen of your type.

Listen folks, this young lady has informed herself, and tells us, "Of

all the forms of tobacco, cigarettes are the most harmful because, besides being made of old and unclean odds and ends of tobacco, they are flavored with opium, belladonna and other poisonous drugs. Arsenic and alum are used in making the papers."

Another cites this experiment: "Look in a pipe that has been used for some time and notice the thick brown coating. Then think what the mouth, throat and nostrils of a tobacco user looks like." "Tobacco causes many permanent diseases as paralysis, insanity, heart disease and

cancerous diseases of the lips, tongue, throat and lungs." "Hugh Jennings, 'Detroit Tigers' manager, declares, 'I can recall more than 100 men who are recognized as stars in baseball who never used a cigarette or any alcoholic beverage. My advice to young men is to control and steel himself against any form of dissipation, and his future success will not be questioned.'"

A Senior declares, "Intoxicating liquors and modern industry must be forever separated if we progress as in the past. The common laborer and

the skilled laborer can be likened to a three-legged stool, if one of the legs is broken the stool will fall. The same with industrial organizations if an employee is not one hundred percent efficient, the organization's efficiency decreases. The chain is no stronger than its weakest link."

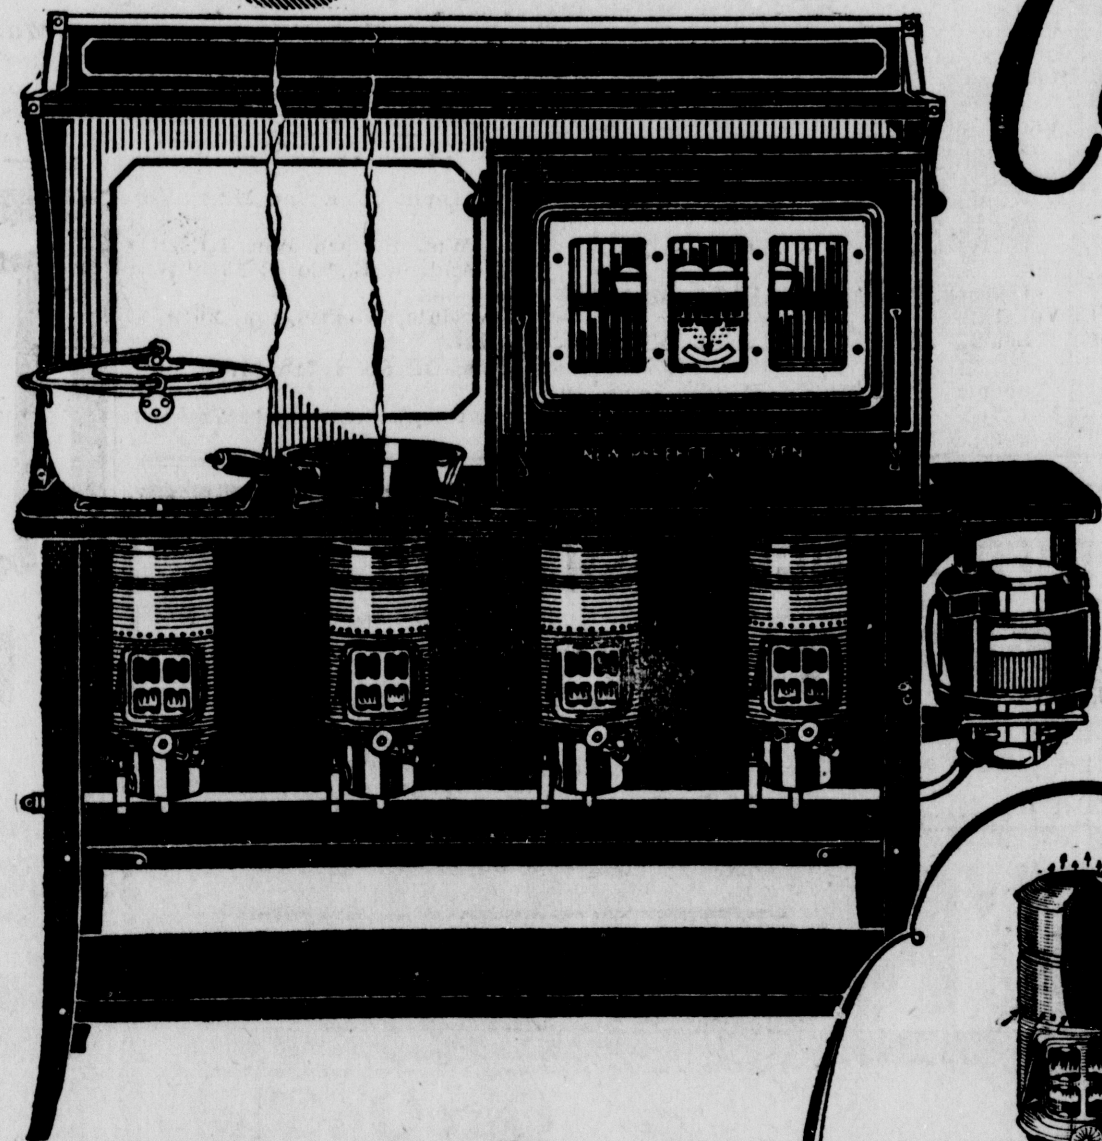

Another Senior says, "Not only is it a crime against man to violate the 18th amendment, but it is a crime against God to violate those laws which he has made regulating that most wonderful piece of machinery, (Continued on page 8)

Brainerd, Minn.
Dear Sirs:

Having returned to Brainerd I feel that it is due you to let you know how the Hup. Sport Model has performed and how much I appreciate the service it has given me.

We left here about one year ago on our trip east and west and we have driven about 30,000 miles over all kinds of roads including about all of the mountain roads in California and the mud of Missouri and we have not had one moment's trouble with the car in any way. Two of the original tires are still on the car.

The only expense the car has been to me is, two sets of brake bands, the carbon removed and the valves ground once.

Coming home we drove from Los Angeles, Calif., to Brainerd in 10½ days, a distance of 2750 miles, so you can readily figure out how much trouble we had coming home.

Hoping this will be of interest to you, I am,

Yours very truly,

DR. ROY WILLIAMS.

BRAINERD TO HONOR HEROES

Prominent Societies and Organizations to March in the Parade

M. MURRAY TO SPEAK

Patriotic Address to be Delivered at Ceremonies Held at the Cemetery

Brainerd will turn out in force on Friday to honor her soldier dead. The American Legion, G. A. R., Woman's Relief Corps, Ladies of the G. A. R., Spanish War Veterans, Boy Scouts, Daughters of American Revolution, Girl Scouts and Camp Fire Girls will be given a prominent place in the parade, which opens the day's observance.

The parade will form on South Sixth street, with its head in front of the Y. M. C. A., at nine o'clock, and will be ready to move ten minutes later. The line of march will be north on Sixth street to Kingwood, east to Broadway, north to Fir, and east to Evergreen cemetery where the program will be carried out. Hon. M. Murray of Sauk Rapids, will be the speaker of the day.

After the exercises at the cemetery the line of march will return to the downtown district and to the Laurel street bridge, where an appropriate ceremony will be conducted in honor of the naval and marine dead.

John P. Elkins is to be marshal of the day, with A. A. Gierlet, Clyde Parker and Kirk Smith as assistant marshals. In addition to the above named organizations, the Brainerd Boys' band and the school children of the city will participate in the parade, as well as many automobiles carrying citizens.

Every person in the city is expected as a patriotic duty and privilege to attend the Memorial Day observance, thus honoring the nation's heroic dead. The day is a legal holiday, banks and business houses will be closed all day, and there will be no counter attractions during the morning to detract from the exercises.

Police Regulations

Chief of Police Harry Gaskill states that South Sixth street will be closed from Maple street north to the depot tracks during parade formation from 8:30 A. M. until the parade leaves headquarters.

Make Springs of Grass

A steel-like grass from the volcanic slopes of Oran, Algeria, is so elastic that it can be used instead of springs in the manufacture of furniture.

STAFF CAPTAIN COMING

Divisional Young Peoples Secretary of Salvation Army to Lead Services Here

Staff Captain W. E. Hickman of Minneapolis, who is Divisional Young Peoples secretary over Minnesota, North and South Dakota, will make his first visit to Brainerd and will conduct a very special service at the hall this week, Friday night.

He will first meet all the corps cadets at 6:30 P. M. If weather permits a street service at 7:30, and then a free-for-all service at the hall, 410 Front street, at 8 P. M.

Don't fail to hear him. Everybody is welcome.

LOST AND FOUND—CALL 74

You will find just the gift you will desire to present to the Girl Graduate among the many articles we are showing. Among the popular gifts is silk hosiery, Phoenix undergarments, novelty bracelets, new neckwear, gloves and other novelties shown in our show cases.

H. F. Michael Co.

Character Counts

It is highly desirable for every man to build up his credit—in other words, to make sure that he could secure a loan or buy goods on credit if necessary.

That is why it is important to settle up all your obligations promptly; to become known as a man whose word can be depended on.

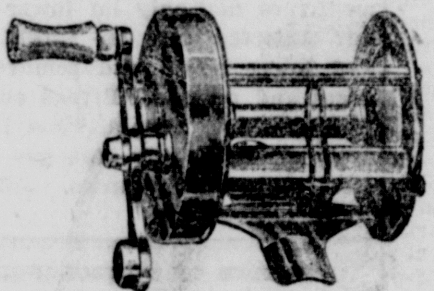

Character counts! Keep up your credit by showing your character.

Chief of Police Harry Gaskill states that South Sixth street will be closed from Maple street north to the depot tracks during parade formation from 8:30 A. M. until the parade leaves headquarters.

Make Springs of Grass

A steel-like grass from the volcanic slopes of Oran, Algeria, is so elastic that it can be used instead of springs in the manufacture of furniture.

You will find just the gift you will desire to present to the Girl Graduate among the many articles we are showing. Among the popular gifts is silk hosiery, Phoenix undergarments, novelty bracelets, new neckwear, gloves and other novelties shown in our show cases.

STAFF CAPTAIN COMING

Divisional Young Peoples Secretary of Salvation Army to Lead Services Here

Staff Captain W. E. Hickman of Minneapolis, who is Divisional Young Peoples secretary over Minnesota, North and South Dakota, will make his first visit to Brainerd and will conduct a very special service at the hall this week, Friday night.

He will first meet all the corps cadets at 6:30 P. M. If weather permits a street service at 7:30, and then a free-for-all service at the hall, 410 Front street, at 8 P. M.

Don't fail to hear him. Everybody is welcome.

SPEEDWAY, TRACK AND RING IN TWO DAYS

By HENRY L. FARRELL
United Press Sports Editor

New York, May 29.—Three of the season's best and most interesting sport spectacles are to occupy attention over the week-end and usher in what should be the most crowded summer in the history of athletics.

The annual 500-mile automobile sweepstakes will be staged tomorrow in Indianapolis; the intercollegiate track and field championships will start tomorrow in the Harvard stadium and the Gibbons-Carpentier international light heavyweight match is to be staged Saturday at Michigan City, Indiana.

The three events are of world-wide interest and importance. The Indianapolis automobile race is the oldest, richest and most important event of its kind in the world. The intercollegiate track and field championships carry the most prestige of any collegiate athletics in the world and the Gibbons-Carpentier contest will bring together two of the most skillful boxers in the world.

For three years the far west, represented by the University of California has reigned supreme on the intercollegiate track and field. For three years the best athletes in the east have failed against a small squad of California athletes, whose victory was scored almost by a few great field stars.

Three Pacific coast teams are entered in the championships this year and the hope of the east is slimmer than it had been during those three years. With the weakest team it has had in years, the University of California may not and probably will not win, but there are excellent chances that the Pacific coast will finish one-two in the championship.

Stanford University will start as the heavy favorite with the University of Southern California as second choice. There seems to be in the east not a single team with enough distributed strength to finish better than third.

The intercollegiate will be of far more importance and they will warrant more attention than the meet would draw under ordinary circumstances. It is the first meet in which a large number of candidates for the American Olympic team are to be put to the test.

Practically all of the Olympic coaches will be on the field to look over the athletes from whom are to be selected many members of the team that the United States will send to Paris. College athletes were represented largely on the team that went to Antwerp in 1920 and perhaps 50 per cent of the team this year will consist of college men and athletes who are only a short time out of college.

On the fast Harvard track it is possible that near to record time may be scored in many of the track events. In the field several records are expected to be lowered, especially in the weight events, where three of the greatest young shot-putters will be forced to the limit to win.

M. E. CHURCH NINE 17 PRESBYTERIANS 7

The baseball team of the Methodist church won from the Presbyterian nine by a score of 17 to 7 in a seven inning game at the railway diamond Wednesday evening.

The battery for the Methodists was Erickson and Larson, for the Presbyterians, Avery, Anderson and Dillan.

Miss Nilsson in Her Finest Role

One of the best possible recommendations for Richard Walton Tully's screen dramatization of Rex Beach's "Flowing Gold," the First National picture showing at the New Park on Saturday and Sunday, at regular prices, is the fact that the leading feminine role is in the hands of Anna Q. Nilsson. Add to that fact the presence of Milton Sills in the leading male characterization and success is assured.

Strongheart Guides Wife in Picture

There is another dog star on the screen, but Strongheart, admitted leader of them all, has no cause to worry, for she is not only Mrs. Strongheart, but owes a great deal of her success to the coaching of Strongheart. Lady Julie is her screen name as well as the name under which she is registered in the blue book of dogdom aristocracy of the American Kennel club. She makes her screen debut in "The Love Master," the latest First National picture starring Strongheart, which will be the attraction at the New Park tonight and Friday. Regular prices.

"The Governor's Lady" Well Worth Seeing

If you haven't seen "The Governor's Lady" at the Lyceum Theatre, be sure to go tonight. Harry Milford, the director, who gave us "If Winter Comes" and "Over the Hill," has carefully transcribed to the motion picture screen David Belasco's dramatic stage success. The cast was particularly well chosen and the work of the leading players, Robert T. Haines and Jane Grey, deserves special mention. The strength of the play has not been lost in the film version, as you will agree when you see it. Once in a great while there comes a production that everyone owes it to himself to see. This is one of them.

Jones Surrenders to the Soft Stuff

"It's like anything else," explains Jones. "You have to get used to it. After I learned that the soft stuff is as much a part of life as the other, I accepted it." He grinned sheepishly. "And it isn't so bad either." "Not a Drum Was Heard" comes to the Lyceum Theatre for two days opening Friday, with Betty Bouton in the role of the girl to whom Jones makes love.

We Make It Easy For All Motorists to Equip With Full-Size Balloons

Firestone

Simplified application of
BALLOON GUM-DIPPED CORDS
at minimum cost

Local motorists are benefiting from the simplified method of applying full-size Balloon Tires, made possible by Firestone. It is an easy and inexpensive job for us to handle your change-over. We have special Firestone units, consisting of tires, tubes, rims and wheel spokes, all built by Firestone according to the highest quality standards. We also have special shop equipment which Firestone has developed for us, giving us an exclusive advantage in turning out an accurate wheel job which exactly fits your present hubs. The cost is little or no more than a set of rims and we can equip your car almost as quickly as a tire change can be made.

Get All the Benefits of the Real Balloon

Insist on the full-size Gum-Dipped Balloon, and get all the benefits in riding comfort, safety and economy. Over 20 car manufacturers and over 40,000 car owners have already equipped with them.

We guarantee you a carefully engineered and perfectly balanced job, at minimum cost. And if you are not completely satisfied when you get them on, we will re-apply your old tire equipment at no cost to you.

SPEEDWAY, TRACK AND RING IN TWO DAYS

By HENRY L. FARRELL
United Press Sports Editor

New York, May 29.—Three of the season's best and most interesting sport spectacles are to occupy attention over the week-end and usher in what should be the most crowded summer in the history of athletics.

The annual 500-mile automobile sweepstakes will be staged tomorrow in Indianapolis; the intercollegiate track and field championships will start tomorrow in the Harvard stadium and the Gibbons-Carpenter international light heavyweight match is to be staged Saturday at Michigan City, Indiana.

The three events are of world-wide interest and importance. The Indianapolis automobile race is the oldest, richest and most important event of its kind in the world. The intercollegiate track and field championships carry the most prestige of any collegiate athletics in the world and the Gibbons-Carpenter contest will bring together two of the most skillful boxers in the world.

For three years the far west, represented by the University of California has reigned supreme on the intercollegiate track and field. For three years the best athletes in the east have failed against a small squad of California athletes, whose victory was scored almost by a few great field stars.

Three Pacific coast teams are entered in the championships this year and the hope of the east is slimmer than it had been during those three years. With the weakest team it has had in years, the University of California may not and probably will not win, but there are excellent chances that the Pacific coast will finish one-two in the championship.

Stanford University will start as the heavy favorite with the University of Southern California as second choice. There seems to be in the east not a single team with enough distributed strength to finish better than third.

The intercollegiate will be of far more importance and they will warrant more attention than the meet would draw under ordinary circumstances. It is the first meet in which a large number of candidates for the American Olympic team are to be put to the test.

Practically all of the Olympic coaches will be on the field to look over the athletes from whom are to be selected many members of the team that the United States will send to Paris. College athletes were represented largely on the team that went to Antwerp in 1920 and perhaps 50 per cent of the team this year will consist of college men and athletes who are only a short time out of college.

On the fast Harvard track it is possible that near to record time may be scored in many of the track events. In the field several records are expected to be lowered, especially in the weight events, where three of the greatest young shot-putters will be forced to the limit to win.

MARKET REPORT

Brainerd Market Report

| Corrected Daily | Retail |
|-----------------------|--------|
| Flour, 98 lbs. | \$3.65 |
| Bran, 100 lbs. | \$1.30 |

CLOVER MIXED—No. 1, \$16; No. 2, \$13.

MIDLAND HAY—No. 1, \$14; No. 2, \$9; No. 3, \$7.

M. E. CHURCH NINE 17 PRESBYTERIANS 7

The baseball team of the Methodist church won from the Presbyterian nine by a score of 17 to 7 in a seven inning game at the railway diamond Wednesday evening.

The battery for the Methodists was Erickson and Larson, for the Presbyterians, Avery, Anderson and Dillan.

Miss Nilsson in Her Finest Role

One of the best possible recommendations for Richard Walton Tully's screen dramatization of Rex Beach's "Flowing Gold," the First National picture showing at the New Park on Saturday and Sunday, at regular prices, is the fact that the leading feminine role is in the hands of Anna Q. Nilsson. Add to that fact the presence of Milton Sills in the leading male characterization and success is assured.

Strongheart Guides Wife in Picture

There is another dog star on the screen, but Strongheart, admitted leader of them all, has no cause to worry, for she is not only Mrs. Strongheart, but owes a great deal of her success to the coaching of Strongheart. Lady Julie is her screen name as well as the name under which she is registered in the blue book of dogdom aristocracy of the American Kennel club. She makes her screen debut in "The Love Master," the latest First National picture starring Strongheart, which will be the attraction at the New Park tonight and Friday. Regular prices.

"The Governor's Lady" Well Worth Seeing

If you haven't seen "The Governor's Lady" at the Lyceum Theatre, be sure to go tonight. Harry Milarde, the director, who gave us "If Winter Comes" and "Over the Hill," has carefully transcribed to the motion picture screen David Belasco's dramatic stage success. The cast was particularly well chosen and the work of the leading players, Robert T. Haines and Jane Grey, deserves special mention. The strength of the play has not been lost in the film version, as you will agree when you see it. Once in a great while there comes a production that everyone owes it to himself to see. This is one of them.

Jones Surrenders to the Soft Stuff

"It's like anything else," explains Jones. "You have to get used to it. After I learned that the soft stuff is as much a part of life as the other, I accepted it." He grinned sheepishly. "And it isn't so bad either." "Not a Drum Was Heard" comes to the Lyceum Theatre for two days opening Friday, with Betty Bouton in the role of the girl to whom Jones makes love.

Chicago Potato Market
Chicago, May 29.—Receipts 303 cars. Wisconsin Round Whites, \$1.45 to \$1.65. Louisiana Triumphs, \$2.15 to \$2.35.
